

December 3, 2019 - Housing Minutes

Attendees: 7

Tanya went over the CAPS Survey to explain to new people what the purpose of the survey is.

She then discussed ways to distribute the information gathered from the survey about which services do what out to the community.

Can we have an interactive real time updated list of CAPS people on the site as we gain resources or have a date as to when they are added so people are aware of when people have joined or how long they have been involved.

The group decided to extend the deadline for the survey and send a survey blast two more times as it is the holiday season. And also leave the survey open and on the website so that we can continue to collect information about people who provide these kind of services or are or want to become CAPS certified.

'Unite US' site

ADA Round Table/ADA Coalition - to help distribute the information we find with CAPS certified individuals. Quarterly Meetings.

Neighborhood Place(s), FRACKLER Group?
LOWES, Home Depot,

Reach out to the National Association of Home Builders where people become certified contractors.

Talked about targeting smaller contractors to become CAPS so that they get more business.
